Deliverable 5.3

Info sessions

Disclaimer

This project has been funded with support from the European Commission. This publication reflects the views only of the author(s), and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Introduction

Within the framework of the ENGAGE project, partner universities organised a wide range of information sessions aimed at raising awareness of entrepreneurship, innovation, startup development and the project outcomes among academic staff, administrative staff, students and external stakeholders.

The information sessions were organised in different formats, including information days, retraining (cascade training) sessions following international study visits, dissemination seminars, knowledge-sharing workshops and project result presentation events. These activities enabled the transfer of knowledge and good practices acquired during the project to a wider university community and contributed to strengthening entrepreneurial thinking and innovation culture within higher education institutions.

For the purpose of this report, retraining (cascade training) sessions organised after international study visits are reported as information sessions, since their primary objective was to disseminate the knowledge, experience and project outcomes gained during the mobility activities to academic staff, administrative staff and students.

Overall, the consortium organised 78 information sessions across partner institutions, substantially contributing to the promotion of entrepreneurial thinking and innovation culture within Azerbaijani higher education institutions.

Besides institutional activities, the project results were disseminated through national conferences, workshops and stakeholder engagement events involving representatives of higher education institutions, public authorities, employers, business support organisations and international partner universities.

The following table provides a consolidated overview of the information sessions organised by each project partner.

Overview of Information Sessions

The table below provides a consolidated overview of the information sessions organised by each project partner during the implementation of the ENGAGE project.

Table 1. Consolidated Overview of Information Sessions Organised by Project Partners

Partner Institution	Number of Information Sessions
Mingachevir State University	6
Baku Business University	7
Baku Higher Oil School	13
Azerbaijan Technical University	7
Azerbaijan Tourism and Management University	8
Ganja State University	11
Nakhchivan State University	6
Azerbaijan State University of Economics	5
Azerbaijan State Academy of Fine Arts	4
Odlar Yurdu University	6
Azerbaijan State Agriculture University	5
Total	78

Total number of information sessions organised within the ENGAGE Project: 78

Throughout the implementation of the ENGAGE project, dissemination activities extended beyond partner institutions and involved a broad range of external stakeholders representing higher education, public administration, employers and business support organisations.

One of the largest dissemination events was the National Conference on the Research Results of the Entrepreneurial Ecosystem in Higher Education Institutions of Azerbaijan, organised on 22–23 January 2024 at Baku Business University. The conference brought together representatives of more than twenty higher education institutions in Azerbaijan, partner universities from Sweden, Spain, Portugal, Estonia and Poland, as well as representatives of public institutions, employers and entrepreneurship support organisations.

Among the participating external stakeholders were representatives of:

- National Confederation of Entrepreneurs (Employers') Organisations of the Republic of Azerbaijan (ASK);
- Small and Medium Business Development Agency of the Republic of Azerbaijan (KOBİA);
- State Employment Agency under the Ministry of Labour and Social Protection of Population of the Republic of Azerbaijan;
- Azerbaijan Women Entrepreneurship Development Association (AQSIİA);
- representatives of non-partner higher education institutions;
- employers, labour market organisations and the wider business community.

These dissemination activities strengthened cooperation between higher education institutions and external stakeholders while increasing the visibility and impact of the ENGAGE project at national level.

NOTE: The majority of information sessions involving non-partner higher education institutions were originally planned for the final stage of the project implementation. Due to the suspension of the project activities in Azerbaijan during the final implementation period, these activities could not be organized as originally foreseen. And the involvement of the AWEDA, ASK and the HR Institute were not able to participate in the events. Only at General Dissemination conference. However in Dissemination conference, The representatives of the following **9 non-partner universities** participated: Baku Engineering University, Baku State University, Azerbaijan State Pedagogical University, Azerbaijan Medical University, State Customs Academy, Baku Eurasian University, Azerbaijan University, Academy of Public Administration under the President of the Republic of Azerbaijan, and Sumgayit State University. Participant list attached
